

Vincent Lau

New York City, Brooklyn

917-3706277

vincent.lau.cs@email.com

Dear Hiring Team,

My name is Vincent Lau and I am so pleased that you saw my portfolio website.

I am a software engineer with more than 5 years of experience with coding and project development, and I believe I can add value to your team and help your organization accomplish its goals.

I've always been interested in the development of websites, databases and online services and would love to contribute to your company's growth and expansion. As a Brooklyn College Bachelors Graduate and Coding Dojo Bootcamp graduate, I have gained a lot of software development experience through my Lead Software Developer internship with entrepreneurs and developers at Trust Fund Registry meeting stakeholders to develop client requests and implement the site that meet business needs. I have also built and still developing several websites for many other communities such as the Brooklyn College Esports and Gaming Club and the Brooklyn Christian Community Church.

My quality assurance and excellent attention to detail allows me to produce quality code that requires less debugging. I love writing comments and guides in all of my work so that in case work requires debugging or modifications, it provides such a massive and clear communication and collaboration among my peers. I'm grateful that you've taken the time to consider me for the position. Please contact me if you have questions or want to discuss my candidacy further. I'm positive I can be a great asset to your company.

All the best,

Vincent Lau
